

CRAFT Research Engine – Personal Use License Terms

The CRAFT Research Engine and its associated prompts, memory packs, and analytic outputs are licensed for **individual personal use only**. Access is granted solely to the named user to whom rights were originally issued.

Unless explicit written permission is granted by the owner:

- The CRAFT Research Engine may **not** be distributed, sublicensed, or made available as a shared corporate resource.
- The content produced, including FLOW matrices, mission analyses, and strategic recommendations, may **not** be copied, extracted, or reused for the benefit of multiple team members, departments, or any third parties.
- Users may store and reference outputs privately for their own professional development and account strategy, but may not resell, publish, or package them as part of any commercial training or product.

The intellectual property, structure, and methods used within the CRAFT Research Engine — including MAPS, WINDOW, and FLOW frameworks — remain exclusively owned by the creator. All rights reserved.

Use of the CRAFT Research Engine constitutes acceptance of these Terms.

CRAFT Research Engine Trademark + Copyright Notice

CRAFT™, MAPS™, WINDOW™, FLOW™, the CRAFT Research Engine™, and all related tradecraft, methodologies, prompts, memory packs, and analytic structures are **exclusive intellectual property** of their creator, ©2025. All rights reserved.

These marks may not be duplicated, adapted, translated, published, redistributed, incorporated into training materials, or otherwise used commercially without **prior written consent**.

The CRAFT brand and associated terms may not be used to:

- Market competing products
- Imply partnership, endorsement, or sponsorship
- Promote corporate enablement programs at scale
- Train teams outside of the original licensed individual

Unauthorized use of CRAFT or its derivative content may constitute trademark infringement, copyright breach, and/or misappropriation of proprietary methodologies.

Use of the CRAFT Research Engine signifies acceptance of these protections.
